I understand that if there is a concern about potential academic misconduct, including inappropriate use of AI tools, then I could be asked to provide evidence of my drafting process during an academic integrity meeting if I have not done so using the link above. Not providing evidence of my drafting process could prejudice the outcome of academic misconduct cases.	☒
If you used AI at (or below) the level allowed, please explain briefly which AI, how you used it, and for what purpose.	AI has been used to brainstorm ideas but no AI has been used for content in the final submission

**This may include (but is not limited to) drafts, versions of the finished document, notes, references, AI output, and AI prompts. These materials are not marked or graded, but they are simply a way to demonstrate how your work was created and to confirm that any AI use in your final submission is within the permitted AIAS scale for your assessment. Providing this helps safeguard you, showing your authentic process, and protecting you should any academic integrity questions arise.*
